1) **Background**

Punjab Skills Development Fund (PSDF) intends to undertake a comprehensive tracer study to ascertain the current employment & income status of trainees who have completed skills training under the Punjab Economic Opportunities Programme (PEOP) and Skills Development Programme (SDP), funded by Government of Punjab in partnership with the Department for International Development (DFID), UK, and executed by PSDF. The tracer study will also report on the level of satisfaction of employers who have employed PSDF graduates.

PSDF is looking to hire a consulting firm for conducting a detailed survey and compiling the tracer study to assess the transition of PSDF’s graduates from skills training to the labour market. The objective of this assignment is to collect data to get a sense of the mid-programme impact of the SDP, as well as tracing the income and employment progress of PEOP graduates, and to gather feedback from employers.

108,082 (41% women) individuals have completed training under SDP during this time (1 August 2016 to 31 May 2018). The survey is expected to provide representative findings of PSDF graduates, and schemes implemented in all districts of Punjab since August 2016. The study will also cover a representative sample of 147,709 people across Punjab who were trained (37.7% women) under the PEOP which ran from 2011 to 2016. All relevant parameters like urban/rural split, gender, age, and prior income, etc., are expected to be considered at the sample design phase.

The study will cover key questions around improved employment/income earning outcomes for the poor and vulnerable that PSDF targets. The data collection tools will be prepared in sight of all relevant employment & income indicators in the SDP logframe document. The tracer study will assess how PSDF has performed thus far on donor-determined milestones for employment and income-earning outcomes in the logframe document, i.e.:

i. 73% male and 29% female PSDF graduates have entered the Labour Force.

ii. 54% male and 59.5% female PSDF graduates who entered the Labour Force are employed or self-employed.

iii. 8.5% increase in income of male, and 3% increase in the income of female PSDF graduates who were employed or self-employed prior to training.

iv. 55% male and 25% female PSDF graduates who were unemployed prior to training are earning at least average minimum national wage or more.

v. 77% of employers are satisfied with the job readiness of PSDF graduates.

The results of the tracer study will aim to:

i. determine PSDF’s performance on afore-mentioned indicators and collect feedback from the trainees on the quality and relevance of the training, particularly for women;

ii. gather information from employers on the quality and relevance of the training particularly for women;

iii. identify areas for improvement based on labour force participation rates, employment rates, income levels and general satisfaction, and trainees’ and employers’ perceptions; and

iv. draw up recommendations to improve the quality, relevance and effectiveness of PSDF’s training offerings.
2) Invitation for Expression of Interest

PSDF is soliciting Expression of Interest from firms to conduct this tracer study. The third-party consulting firm will conduct an extensive survey activity and any associated qualitative data collection to enrich the quality, integrity and meaningfulness of results, to report comprehensively on the employment and income generation outcomes of PSDF graduates from both programmes.
