TRAINING OBJECTIVES

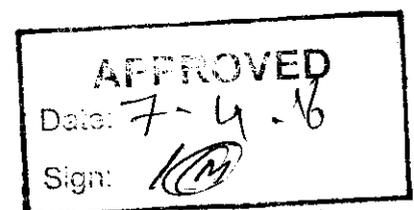

This course is designed for the participants who want to join garment industry as a stitcher or industrial stitching machine operator. In this course the student will get the operating skill and knowledge of special garment machines, their function, lubrication minor faults and remedies. The purpose of this course is to enhance productivity with quality.

This course aims at producing semi skillful workforce for Garments Industry in the field of Industrial Stitching Machine. This workforce shall be given adequate training in operating the various stitching machines generally used in Garments Industry.

Emphasis will also be on character building of students during their training by delivering motivational lectures on patriotism and discipline.

CURRICULUM SALIENT

Name of Course	:	Industrial Stitching Machine Operator
Entry level	:	Matric
Duration of course	:	3-Months.
Total training hours.	:	400 Contact hours.
Training Methodology	:	Practical 80%
		Theory 20%

SKILL PROFICIENCY DETAILS

On successful completion of this course, the trainee should be able to: -

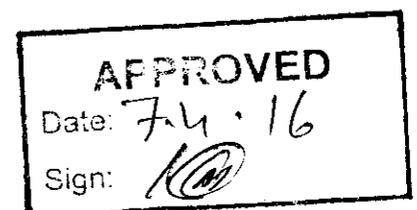

1. Clean machines (Before & after work).
2. Wind a bobbin, thread a machine, thread color change, without removing complete thread (by knotting) adjust tension, choose and change a needle.
3. Differentiate the needs of Lock Stitch, Over Lock, and Button Hole & Button Stitch Machines etc.
4. Operate machines, handle garment and control speed of each machine properly.
5. Exercises paper / card sewing (simple to complex shapes).
6. Sew on Rags.
7. Make various shapes on fabric pieces e.g. collar, placket; side-vents etc.
8. Produce maximum work in minimum time with required quality.
9. Rectify the causes of thread breaking, bobbin thread breaking and their remedies.
10. Rectify the causes of skip stitches.

KNOWLEDGE PROFICIENCY DETAILS

On successful completion of this course, the trainee should be able to: -

1. Explain types and functions of different Industrial Sewing Machines.
2. Describe parts of Sewing Machines/ their functions.
3. Explain Oiling and cleaning all type of sewing machines (before & after work).
4. Describe installation of different accessories.
5. Define causes of thread breakages, skip, and jump stitches & needle breakages.
6. Describe care before Operation.
7. Describe care during Operation.
